Start Dates

Est. Construction Start: Apr, 30 2021 Trenching of Foundations: Est. Completion:
 Vertical Start: Est. Build-out Months: 24

Project Description

Cost Of Construction: 0	Total Units/Homes: 112	Total Buildings: 1
Total Number Of Stories: 0	Below Grade Levels: 0	Avg SqFt Per Unit/Home: 0
Est. Construction Start: Apr, 30 2021	Est. Sqft Below Grade: 0	Avg SqFt Per Building: 0

Current Project Data

Total items reviewed: 1416	Number of open items that are 0 to 15 days old: 0
Total closed items (CDR's): 8	Number of open items that are 16 to 30 days old: 0
Total open items: 0	Number of open items that are 31 to 60 days old: 0
	Number of open items that are over 60 days old: 0

Report By: Tyler Sparks

I certify that I have carefully inspected this property on this date. I have no personal interest, present or prospective, in the property, or the onsite personnel. To the best of my knowledge I have reported all noncompliance, work requiring correction, and unacceptable work.

01/09/2023

Framing

1.00-Beams and headers are correct size per plans/code.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Headers are correct size per plan

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:03 AM)

1.01-Post are correct size per plans/code.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Post are correct size per plan

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:03 AM)

1.02-Structural support is continuous to foundation.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Structural support is continuous to foundation

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:04 AM)

1.03-Hardware is installed per plans, code and manufacturer's specifications.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Hardware is installed per plan

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:04 AM)

1.04-Anchor bolts are installed per plans/code.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Pin shot

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:04 AM)

1.06-Wall framing components have not been over notched or drilled.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Wall framing is not over notched or drilled

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:05 AM)

1.07-Floor framing components have not been over notched or drilled.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Floor framing is not over notched or drilled

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:05 AM)

1.15-Stairs are installed per plans/code.

NA - Not Applicable, building type does not contain this system

NOTE: Single story unit

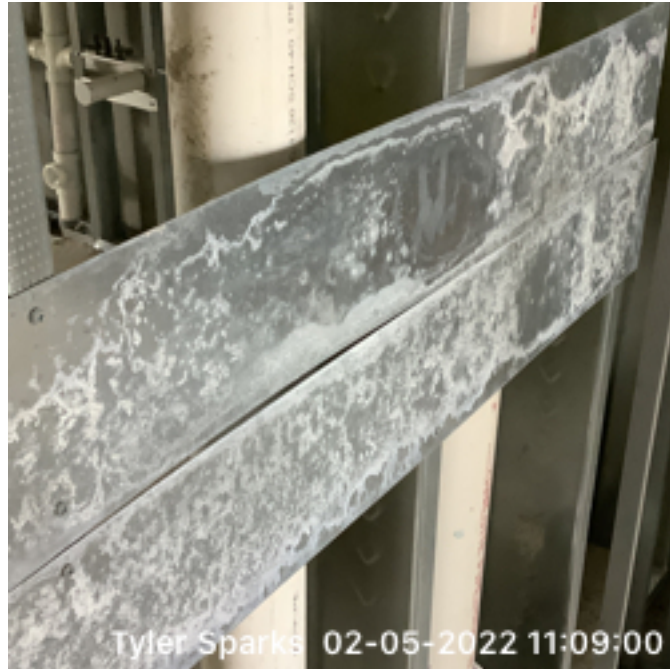

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:08 AM)

2.03-Interior backing has been installed for railing, plumbing and/or electrical items.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: Interior backing is installed per plan specifications

Builder Risk Engineer: Tyler Sparks (Feb 5, 2022 11:08 AM)

Rough Trades

1.00-Conductor wiring is installed with proper support and is protected from damage.

S - Satisfactory, the system meets plan/code/manufactures specifications

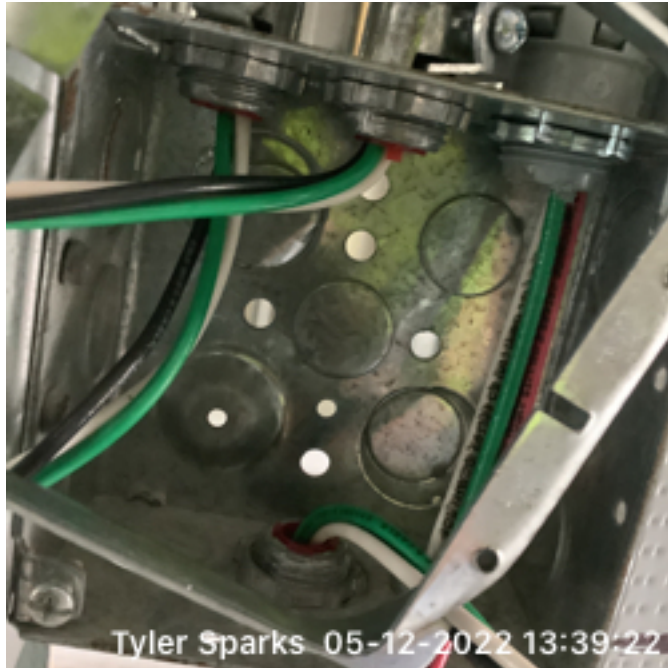

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:38 PM)

1.02-Minimum 1/4 inch of Romex sheathing is in the device box.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:39 PM)

1.03-Junction and/or device boxes are not overfilled.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: J box's not overfilled

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:39 PM)

1.04-Smoke detectors are in stalled at all required locations.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:39 PM)

1.05-Smoke detectors have proper clearances where required.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:39 PM)

1.06-All outlets and switches are located per plan specifications.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:40 PM)

Tyler Sparks 05-12-2022 13:40:26

1.07-All low-volt wiring is installed per the plan specifications.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:40 PM)

Tyler Sparks 05-12-2022 13:40:35

2.00-Supply lines are installed per the plan and manufacture`s specifications.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:40 PM)

Tyler Sparks 05-12-2022 13:40:50

Tyler Sparks 05-12-2022 13:40:59

Tyler Sparks 05-12-2022 13:41:08

2.01-Supply lines are protected from damage.

S - Satisfactory, the system meets plan/code/manufactures specifications
Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:41 PM)

2.03-Pex lines have proper clearances where required.

S - Satisfactory, the system meets plan/code/manufactures specifications
Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:41 PM)

Tyler Sparks 05-12-2022 13:41:27

Tyler Sparks 05-12-2022 13:41:38

Tyler Sparks 05-12-2022 13:41:44

2.04-Sewer lines are installed per plan specifications.

S - Satisfactory, the system meets plan/code/manufactures specifications
Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:41 PM)

2.05-Sewer lines are properly sloped to drain.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:41 PM)

2.06-Sewer lines are protected from damage.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:42 PM)

2.10-Vents are properly installed and located per plan specifications.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:42 PM)

3.00-Supply and return ducts are installed in a manor to allow for maximum air flow.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:42 PM)

3.01-Supply and return ducts are connected and sealed per code specifications.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:43 PM)

3.04-Exhaust ducts are properly installed and terminate at safe locations.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:43 PM)

3.06-Fireplace is installed per the manufacture`s specifications.

NA - Not Applicable, building type does not contain this system

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:43 PM)

Rated Assemblies

1.00-Wall assembly Fire Blocking/Draft Stopping has been installed per code.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

1.01-Floor assembly Fire Blocking/Draft Stopping has been installed per code.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

1.02-Stair assembly Fire Blocking/Draft Stopping has been installed per code.

NA - Not Applicable, building type does not contain this system

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

2.00-Usable space below stairs is installed per code.

NA - Not Applicable, building type does not contain this system

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

2.04-Two Hour wall assemblies are installed per plan/code requirements.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

2.05-Two Hour floor/ceiling assemblies are installed per plan/code requirements.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

2.07-Non-rated penetrations are properly addressed per plan/code.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

2.10-Through penetrations are properly addressed per plan/code.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:47 PM)

2.11-Doors within rated assemblies are properly rated.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:48 PM)

2.12-There are no acoustic breaches in the wall assemblies.

S - Satisfactory, the system meets plan/code/manufactures specifications

NOTE: None at time of observation

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:49 PM)

2.13-There are no acoustic breaches in the floor/ceiling assemblies.

S - Satisfactory, the system meets plan/code/manufactures specifications

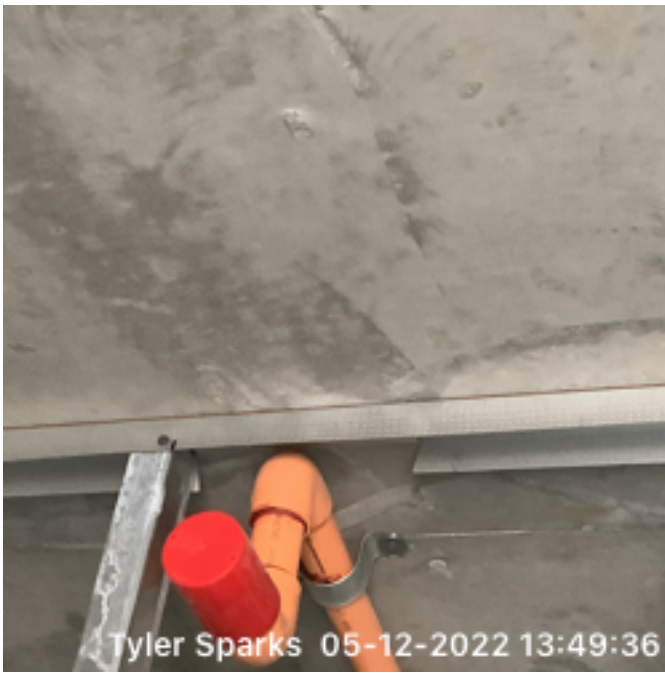

NOTE: None at time of observation

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:49 PM)

3.00-CPVC Fire Suppression system is properly installed to industry standards.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:49 PM)

3.01-CPVC Fire Suppression system is protected from damage.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:49 PM)

3.04-Fire suppression sprinkler heads are clean, free of paint and are not obstructed.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:49 PM)

5.00-Smoke detectors are installed at all required locations.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:50 PM)

5.01-Smoke detectors have proper clearances where required.

S - Satisfactory, the system meets plan/code/manufactures specifications

Builder Risk Engineer: Tyler Sparks (May 12, 2022 1:50 PM)
